

SEAFLO®

3.0 GPM Water Pump

SEAFLO 42/43-SERIES PRESSURE PUMP

Meet the newest addition to our fresh water pump line: the 42 & 43 Series. The SEAFLO 42-Series (Threaded Fittings) and 43-Series (Snap-In Quick-Connect Fittings) offer our **Innovative Variable Flow Technology**. No need for an accumulator tank, and no more pump cycling. This advanced technology increases pump life, making this a more dependable pump, while providing you with superior performance. This automatic water demand pump is quiet, compact and very capable. From a small trickle, to full 3.0 GPM open demand, these pumps give you the constant stream you want at any flow rate.

Model #	Voltage	Dimensions Inches/mm	Flow Rate GPM	Amps	Inlet/Outlet	Shut-off Pressure
SFDP1-030-055-42	12 VDC	8.0" x 4.9" x 4.4"	3.0 GPM	7.5	1/2" Threaded	Adjustable 45-65 PSI (Factory Set: 55 PSI)
SFDP2-030-055-42	24 VDC	8.0" x 4.9" x 4.4"	3.0 GPM	4	1/2" Threaded	Adjustable 45-65 PSI (Factory Set: 55 PSI)
SFDP1-030-055-43	12 VDC	8.0" x 4.5" x 4.4"	3.0 GPM	7.5	Quick-Connect	Adjustable 45-65 PSI (Factory Set: 55 PSI)
SFDP2-030-055-43	24 VDC	8.0" x 4.5" x 4.4"	3.0 GPM	4	Quick-Connect	Adjustable 45-65 PSI (Factory Set: 55 PSI)

Adjustable Pressure Switch
(From 45-65 PSI Cutoff)

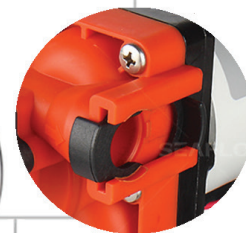

Robust, Efficient, Long-Life Motor
(Longer Motor Life Than Competing Brands)

Available in both a 1/2" Threaded (42-Series) & Quick Connect (43-Series) Inlet & Outlet
(A variety of Fittings & Filters for every application)

Fittings & Filter

Included**

Built-In Check Valve
(Prevents Back-Flow & Allows For City Water Connection)

Internal Variable Flow Bypass
(No Cycling, Consistant Flow)

4 Individual Chamber Design
(Higher & More Consistant Flow Rate)

Completely Rubber Mounting Base
(Reduces Noise and Vibration)

*Pricing is based on quantity ordered

**Fittings included on all orders unless specified
